InDesign Adobe XD

EXPERIENCE

Jun 2024 - Now

Technology Manager

Demetra Cabinetry

San Jose

- Optimized the design and production workflow by integrating a new front-end design tools with back-end production software, Cabinet Vision. Developed a comprehensive catalog within Cabinet Vision and established a seamless data transformation process, enabling direct CNC cutting from the front-end design ordx. file.
- Developed an online appointment and inquiry form to enhance customer engagement and streamline online business interactions.

Nov 2022 - Jun 2024

UX Designer

ChaadHR

Remote

- Drove cross-functional collaboration to design a SaaS platform connecting employers with global talent, enabling efficient team management.
- Lead the design of a payroll management system, including invoice dashboard, payroll status tracking, transaction processing, etc. Aligned user needs with business objectives to ensure an optimal management experience.
- Adapted payroll system designs to meet diverse regional regulations, successfully launching in 10+ countries.
- Leveraged customer insights and data metrics to drive continuous product improvements.

Jun 2022 - Aug 2022

UX Designer Intern

Amazon

Remote

- Led an end-to-end design project for a new shopping recommendation feature.
- Utilized existing user data to prototype innovative concepts; collaborated with UXR and organized unmoderated design testing to rapidly gather user feedback for design iteration.
- Collaborated closely with cross-functional stakeholders throughout the ideation, design, and implementation phases.

Sep 2020 - May 2023

UX Designer

California College of the Arts

San Francisco

09. 2022 - 05. 2023 | Google Sponsored Design Project

- Sponsored by Google, engineered an interactive digital installation at the YBCA museum for the Future Resonance show. The exhibition received recognition in the form of a Bay Area outpost for the prestigious Scholastic Art & Writing Awards.

09. 2022 - 12. 2022 | Lenovo Sponsored Design Project

- Partnered with Lenovo to investigate the “future of workspace” for live-streamers. Investigated the future of workspace for live-streamers, conceptualizing a portable live-streaming device.

01. 2022 - 05. 2022 | Teaching Assistant

- TA of the Intro to Interaction Design class, assisted the professor in preparing course materials and provided one-on-one coaching to students.
